

GENUINE PARTS: MAXIMISE YOUR PERFORMANCE

GENUINEPARTS
HIGH PERFORMANCE

Your tractors, combine harvesters and balers are complex machines comprising numerous interconnected parts. These parts need to be in top condition and also work in harmony. By opting for Genuine Case IH quality, you are **guaranteed superior materials**, enhanced safety and perfect fit. This means **more performance**, less downtime and lower long-term costs.

YOUR HYDRAULIC POWER SYSTEM OPTIMISED FOR SUPERIOR PERFORMANCE

Your hydraulic pump converts mechanical energy into flow and pressure to perform a variety of essential tasks including lifting, steering, braking, as well as hydraulic transmission.

Perfectly adapted to your machine,
Genuine Case IH hydraulic pumps:

- ✓ Make driving more comfortable;
- ✓ Boost your productivity;
- ✓ Optimise your hydraulic system;
- ✓ Save time with easy installation.

STEP 1

The mechanical energy drives the hydraulic pump to draw up the oil from the tank.

STEP 2

The flow of oil is transferred to all hydraulic receivers as cylinders and motors using the switching function of the distributor.

STEP 3

The waste oil collected is filtered and can be re injected into the hydraulic circuit.

| | OBSERVATIONS | RECOMMENDATIONS |
|------------|---|---|
| FLUIDS | Failure of major components, high fuel consumption, low performance | <ul style="list-style-type: none"> • Change oil regularly in accordance with interval maintenance recommendations • Use hydraulic oil with min/max viscosity adapted to CASE IH guidelines and environment: temperature, risk of pollution, fire hazards |
| FILTRATION | Pump piston and valve damage, clogged cylinders, pressure drops | <ul style="list-style-type: none"> • Change your filters regularly with Genuine Parts: enhanced filtration reduces contamination and offers better protection • Use a Genuine filter to minimise risk of pressure drops for a better performance |
| BREAKDOWN | Breakdown of components due to cavitation, overpressure, excessive temperatures | <ul style="list-style-type: none"> • Remember that pollution (dust, air bubbles and particles) can damage your hydraulic circuit • Call on the services of professional hydraulician with experience in hydraulics for any repairs |

FILTERS

SUPERIOR PROTECTION THROUGHOUT THE SEASON

Your safety is our priority when designing all Case IH machines. To maintain these high standards, we recommend using Genuine Case IH parts for your repairs and maintenance. With Case IH filters, innovative technology and superior quality will protect your machines more effectively for longer.

With Case IH filters, Boost your tractor lifespan and ensure maximum protection throughout the season.

- ✓ Maximum cost-efficiency from enhanced machine lifespan;
- ✓ Perfectly adapted to fit your Case IH machine;
- ✓ High-quality filtration with a high-tech internal structure;
- ✓ Optimum, lasting lubrication to avoid premature wear;
- ✓ Cold strating whatever the outside temperature.

WHY CHOOSE CASE IH FILTERS?

- ✓ **Longer lifespan:** highly resistant materials even in extreme conditions;
- ✓ **Maximum filtering capacity and efficiency:** using multi-layers;
- ✓ **Optimised performance:** filter designed for your engine.

IDENTIFYING GENUINE PARTS BY THEIR LABEL

There may be very little difference between the labels and packaging for Genuine Parts and counterfeits. Look out for the counterfeiting text beneath the part number on all Genuine filter labels.

Choosing Case IH fuel filters means:

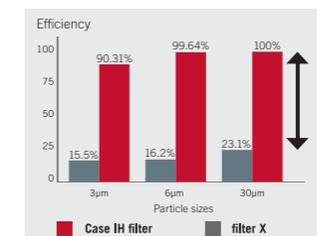

Capacity

Maximum quantity of contaminants the filter can stop

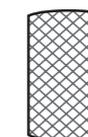

Efficiency

Percentage of efficiency in stopping a given size of particle

Loss of pressure

Resistance to flow of fuel in filter that limits output

Case IH Fuel filter

OPTIMISED FOR EACH ENGINE

DID YOU KNOW? It is recommended to change your filter and pre-filter every 600 hours or once a year.

A NEW LEASE OF LIFE FOR YOUR OLDER MACHINES

Just because your machines are no longer new, it doesn't mean they don't deserve to be looked after. You can now ensure that your older machines continue to perform to their best with high-quality parts at unbeatable thanks to Case IH's **REMAN** and **GOLD VALUE** ranges.

REMAN LIKE-NEW PERFORMANCE FOR LESS

How can you get your machines between 5 and 15 years old to work more efficiently on a budget?

Case IH's **REMAN** range gives you access to "remanufactured" parts that have been disassembled, cleaned, industrially reconditioned, reassembled and tested to **the same high standards as all Case IH parts.**

THIS MEANS THAT YOU AND YOUR MACHINES CAN BENEFIT FROM:

- Lower cost alternative;
- Faster installation;
- Like-new performance;
- Ever-growing parts range.

2-year warranty for all REMAN engine parts

GOLD VALUE IMPROVE PERFORMANCE AT ANY AGE

Are your machines more than 15 years old? Do they require regular maintenance? Do you want to boost their value and performance without spending a fortune?

The **GOLD VALUE** range is an economical solution to keep your older vehicle in shape with standard-quality parts that reduce your servicing costs by as much as 40%.

More than 3,000 parts covering more than 700 machine models are carefully tested to stringent Case IH standards.

GOLD VALUE parts are available in all major categories, including the Value Line Batteries.

GOLDVALUE

KEEPING YOU ON TRACK THIS SEASON

As well as providing high-quality parts, Case IH also focuses on building the services you need to perform better every day, ranging from personalised aftersales support to extended warranty packages and streamlined logistics.

LOGISTICS KEEPING YOU ON THE GO

Getting the parts you need, when you need them is essential in keeping your operations on track, especially during the busy harvest period. This is why Case IH has reinforced its logistics processes to ensure the best availability for the next season:

For you, this means less waiting, less downtime and less stress.

 Detailed event analysis to prepare for the new season

 Complete index of parts in the Case IH network

 25 Optimised stock based on last seasons' orders

98% delivery target for 2018

 More than 46,000 parts ordered each year

SAFE GUARD PROTECTING YOUR FARMING OPERATIONS

How can you maintain your productivity under all circumstances?

SafeGuard is your personalised package of service and warranty options that offers different levels of cover depending on your needs and budget:

- Enjoy continued productivity during planned service and maintenance
- Keep your machines healthy to reduce downtime and unexpected repairs
- Spread servicing expenses, extend warranties and boost resale value

SAFEGUARD GOLD
Maintenance / Extended warranty / Telematics

SAFEGUARD SILVER
Maintenance contract / Extended warranty

SAFEGUARD BRONZE
Maintenance contract

SERVICETEAM GUIDING YOU TO GREATER EFFICIENCY

Need spare parts in a hurry? Looking for customised financing options? Questions about your machines? **Case IH SERVICETEAM** is a strong international network deployed at a local level that brings together Case IH experts to provide comprehensive after-sales service:

- Financial services **SERVICEFINANCE**
- Modern training methods
- Best-in-class spare parts
- Technical and logistics support
- Emergency assistance

 **DID YOU KNOW...** the Breakdown Assistance call centre deals with parts requests within 2 hours in 95% of cases?

 **DID YOU KNOW...** YOU CAN SAVE 20% - 40% ON YOUR MAINTENANCE COSTS WITH SECOND LINE PARTS?
